## EPA Rating of Draft EISs

(Paraphrase)

### Environmental Impacts of Proposed Federal Activities

**LO: Lack of Objection**

EPA review has not identified any potential impacts requiring changes to the proposal.

**EC: Environmental Concerns**

EPA review has identified environmental impacts that should be avoided to fully protect the environment.

**EO: Environmental Objections**

EPA review has identified significant impacts that must be avoided to adequately protect the environment.

**EU: Environmentally Unsatisfactory**

EPA review has identified adverse impacts of sufficient magnitude that they are unsatisfactory from the standpoints of public health or welfare or environmental quality. The proposal may be referred to CEQ unless the unsatisfactory impacts are corrected at the final EIS stage.

### Adequacy of Draft EIS

**1. Adequate**

The EIS's treatment of impacts and alternatives is adequate.

**2. Insufficient Information**

The draft EIS does not contain sufficient information to fully assess All reasonable alternatives.

**3. Inadequate**

The deficiencies in impact analysis of alternatives are of such magnitude that a revised draft EIS should be recirculated. The action is a potential candidate for referral to the CEQ.
